

# RV 5-Rivet Kit assembly instructions

Because it's design is based on the VansAircraft and it uses 5 rivets!

**Building a RivKit is easy:**

## **SAFETY FIRST!**

*Use protective eye glasses and gloves.*

**Snip** the connector parts away. (red)  
Use a flush cutter to get clean cuts.

**File and sand** the edges smooth.

**Bend** the parts.

Use pliers or a table vise for accurate bends.

*Be careful to bend left and right parts opposite one another.*

Bend the prop spinner around another part or around a rivet shaft.

Small bend adjustments can be made after complete assembly.

**Rivet** the parts together.

**Apply stickers or paint.**
